19:00	Possible Social Program Activity				Elder Museum Invitation				Conference Dinner				Possible Social Program Activity				

First Column (left to right) for each day is in Room A, second in Room B, third in Room C and fourth in Room D

Workshops

1. Systems Theory, Applications, Pioneers, and Landmarks
2. Theory and Applications of Metaheuristic Algorithms
3. Mechatronic Product Development
4. Model-Based System Design, Verification and Simulation
5. Applications of Signal Processing Technology
6. Applied Data Science and Engineering for Intelligent Transportation Systems and Smart Mobility
7. Computer and Systems Based Methods and Electronic Tools in Clinical and Academic Medicine
8. Systems in Industrial Robotics, Automation and IoT
9. Systems Thinking and Systems Simulation: An Interdisciplinary Approach to Modeling Complexity
10. Data Science in Medical and Bio-Informatics
11. Modeling, Simulation, and Optimization in Production and Logistics
12. "Green AI" and SW-Tools for Sustainable Energy and Materials Consumption
13. Stochastic Models, Statistical Methods, and Applied Systems Simulations
14. Impact of AI and Quantum Technologies on Cybersecurity
15. Indoor Positioning and Localization
16. Blackbox Systems for Generative AI - Explainability and Applications
18. Cybermedical Systems as Human-Centered AI and Digital Medicine Applications
19. Innovative Teaching Approaches in Computer Science and Automation: Methods, Tools, and Experiences
